

# Visual Schedule

# Visual Schedule

The goal of the Visual Schedule is to provide pre-visit information so that you can personalize your visit to meet the needs of your child or loved one. If you use a removable adhesive (such as Velcro) the tool can also provide flexibility for altering your schedule during your visit if needed.

## Instructions:

1. Print out pages 3-7, single sided.
2. Using a pair of scissors, cut out the **Garden Icons** and choose which gardens you will visit. There are also cards for food and bathroom breaks and several blank cards for you to create your own.
3. If you desire flexibility during your visit, attach a removable adhesive like Velcro, to the back of the icons. If not, use a glue stick to glue icons to paper.
4. On the **Schedule** page, attach the cards to the page in the order that you will visit them.
5. If Velcro is used, you can move the icons to the **All Done** page after you have visited them.

# Which gardens will we visit today?

Kathryn's Garden

Scott Florida Garden

Irma's Garden

Foster Succulent Garden

Kapnick Brazilian Garden

Lea Asian Garden

Kapnick Caribbean Garden

Water Garden
