THIS WORKSHOP is designed to introduce, model, and provide guided practice in all facets of exposure-based therapy, the recognized “gold standard” treatment for anxiety – from initial assessment and psychoeducation, through educational/vocational reintegration and relapse prevention. This training will include all modifications that have been empirically supported for use among individuals with comorbid ASD diagnosis.

DR. JOSH NADEAU is a licensed clinical psychologist and the Clinical Director at Rogers Behavioral Health – Tampa, an intensive treatment facility offering individualized programming for anxiety, mood, and obsessive-compulsive and related disorders. In his research and practice, Dr. Nadeau focuses upon the adaptation of evidence-based techniques to address the unique needs of youth and adults with autism spectrum disorder (ASD) and other neurodevelopmental disorders.
