Taking My Dog to Class at

Courteous

Canine
Lots of dogs go to class at Courteous Canine!

Courteous Canine is a school for dogs.
My dog will go to class there.
I will go too.
I will learn how to train my dog.
What do dogs learn in class?

They learn to sit.

They learn to walk with a harness and a leash.

They learn to lay down.
What do I learn in class?

I learn how to teach my dog.
I can use this calendar to know when to go to class at Courteous Canine.

First, I will write the date for each day of the month with a water based marker. Then I will attach the Courteous Canine dog to the days that class is scheduled. When the class is finished, I will remove the logo from that day.

You will need to cut out these logos. Put a small dot of velcro in each calendar box and on the backs of the logos.
Teachers at Courteous Canine

Ms. Jessica is a teacher at Courteous Canine.

There are other teachers too.

They teach me how to train my dog.
This is where class will be.
Please Close the Gates!

There are many fences and gates at Courteous Canines. They keep the dogs in one safe place, away from cars and strangers.

When I use the doors and gates, I will remember to close them. This way the dogs will be safe.
What To Do With Poop

Most of the time, when dogs need to poop, they look in the grass for a place to go.

If my dog does this, I need to clean up the poop.

That way, people and other dogs will not step in it.

What To Do:

- Take a clean bag from the yellow box.
- Use the bag to pick up the poop, then throw it in the trash.
- Wash my hands with soap and water.
Dogs Learn Agility Too!

Some dogs learn to run, jump and use equipment when they play.

They take agility classes.

Agility classes are always outside.
The agility field is set up in stations. Dogs learn to do something different at each station. They learn to:

- Wait for a command
- Run through a tunnel
- Cross a bridge
- Jump hurdles
